

Aston Le Walls

April 2010

SUNSHINE SHOW JUMPS AND CROSS COUNTRY AS FAR AS THE EYE CAN SEE!!

Two groups of three turned up on a perfect spring day at Aston le Walls to enjoy the excellent facilities and first class training from Nigel Taylor. The training began in the large outdoor arena where the riders were put through exercises to improve their awareness of rhythm and ability to ride on a good line to a fence and to help the horses become more agile (a line of four bounces!). They were then treated to a selection of the vast array of ever-changing cross country fences where they were able to test out the skills they had practised in the arena. All the riders had made good use of Nigel's advice and their horses all showed a lot of promise for the season ahead! Nigel commented on how well mounted they were. I am sure the riders all had a very enjoyable and valuable experience and I look forward to seeing it all put into action at the horse trials and tetrathlons this year!!
